Cayden Scruggs

Guy has just gotten home. After a long day at the plant, he wants nothing more than to wind down in silence.

Just as soon as he gets home, his teenage son begins whining about needing new video games.

Before Guy goes postal, an ad flashes across his tv screen for a new app to get the best deals on video games and computer hardware. Desperate, he downloads the app.

Guy types out a quick search for Video Games and sorts by lowest prices. Immediately, the cheapest deals on the internet appear on his screen.

Guy is surprised by the easy, no-fluff interface and quickly finds a great deal on the Wal-Mart website for Farm Simulator 2023.

Crisis Averted!
